Project Details

| Project | Merck MMD BAS Analytics T&M |
|------------------------------|---|
| Duration | 01 May 2020-31 Jul 2020 |
| Team Size | 1 |
| Role/Position | Development (Development - Design)-User Experience Specialist |
| Project Description | This Project mainly handles the Merck MMD. Data will come from the different applications and loaded into Enablon. Using R Script created different Spotfire reports like Corporate Management Dashboard, Injury & Dashboard, Imjury & Dashboard, I& Data Senor Management report, based on the customer requirement. Providing support to these developed Spotfire reports as well. |
| Technical Environment | TIBCO Spotfire 10.3.3 |
| Responsibilities | Gathered business requirements from business users and documented their Reporting needs and Analyzed the data and business logic underlying the requirement. Analyzed the Functional Specification and created Config sepcifications Designed and Implemented Various Report like Injury & Data senior Management Report and Injury & Data senior Management reports. Prepared Design Specifications for each and every report. Created SIT and UAT Test cases for all the reports. |

| Achievements | Completed successfully Phase-III without any bugs or issues in August 2020. Business people are very much happy for quality and bug free deliverable. |
|-----------------------|--|
| Project | Merck Integrationplatform Services |
| Duration | 27 Nov 2019-30 Apr 2020 |
| Team Size | 2 |
| Role/Position | Development (Development - Design)-User Interface Designer - 1 |
| Project Description | Project mainly handles the Merck Animal Health. Data will come from the different applications and loaded into the Oracle. Using Oracle data created different Apex Front end forms like Customer Contacts forms, region |
| | Forms, Roster forms, Program Details forms and Territory Forms based on the customer requirement. |
| Technical Environment | Oracle Apex 5.1.4 |
| Responsibilities | Gathered business requirements from business users and documented their Business and Reporting needs and Analyzed the data and business logic underlying the requirement. Analyzed the Functional Specification and Developed Various forms. Developed Various Oracle Apex forms like Customer Contact Form, Program Form, Program Tier form, Affiliation Form, Master |
| | Price List form, Special Pricing form, Contact Details Form, Roster Form, Refion Form, Area Bus Lead Form and Territory |
| | Foms and Geographial details forms Created Linking between these forms Customer can Enter the details using these forms and update the existing records as well Created Customer Primary cot Code details form as well. |
| Achievements | - Completed successfully two phases like Phase-I and Phase-II with out any Bugs. |
